

Introducing the

VENDOR LINK

by *Bride♥Link*

Join our community of wedding professionals in cultivating a better wedding industry with professional development resources, curated networking events, vendor outreach programs and strategic marketing opportunities.

PROFESSIONAL DEVELOPMENT

Scale your business, become more efficient and hone in on your goals with laser focus. Our Professional Development Resources allow you to learn at your own speed and understand what drives the wedding industry and our target market in the ever-changing landscape. We will share tools to help automate your business, better serve your clients, and help you close the sale. From automation tools to industry education, we will share the tools that drive your success.

CURATED NETWORKING

Our bi-monthly Members Only Vendor Round Table Events create an intimate setting of eight to twelve wedding professionals, sharing a meal (and advice!), perfect for the vendor looking to collaborate and build strategic business relationships. Network with vendors that have the same ideal client and complimentary business model. Tell us who you are and your desired industry connections, and we will match vendors with like minded business goals. You are guaranteed to be the only vendor that does what you do. So just be you.

VENDOR OUTREACH PROGRAM

Let us be your cheerleader and spread the word about your business in the local wedding community through our Vendor Outreach Program. We will be contacting wedding venues and other specialties to promote our members as the preferred wedding professionals in the area. Get on our list so you can get on theirs.
